New NWEA Map Testing K-5th Grade

All K-5 students will take the NWEA MAP assessment between October 5 and 16 . This assessment helps teachers understand what students know and what they're ready to learn next in reading and math. We take this assessment three times a year to measure student growth and help teachers meet individual learning needs. Families can help by encouraging their child to try their best, take their time, and simply show what they know. We encourage positive talk and a good night's sleep leading up to MAP. There is no need to study or prepare--just come ready to give their best effort.
